

IIT Kanpur

announces a 12-week online course

PHYSICS of SEMICONDUCTORS

by

Prof. H.C. Verma

Starting on August 15, 2017

Who should attend

The discussion will be roughly at 10+2 and UG (B. Sc. and B. Tech.) first-year level course on semiconductors or electronics. Thus students of std. 12 onwards will benefit most from this course and teachers who teach this topic are another target group.

Schedule

Three lectures will be released every week, generally one on each Tuesday, Thursday and Saturday. The lectures can be viewed any time during the course duration. Four multiple choice quizzes will be held for evaluation.

Certificates

Certificates will be issued by the Centre for Development of Technical Education, Indian Institute of Technology Kanpur. Two kinds of certificates will be issued to the qualifying students based on their involvement and performance.

- **Competency Certificate**

This will be given to the participants who would have viewed at least 90% of the lectures and scored a minimum percentage in the quizzes. The minimum percentage for the quizzes will be decided by the course instructor after the examinations.

- **Participation Certificate**

This will be given to the participants who would have viewed at least 90% of the lectures.

This course is offered under the scheme - Pandit Madan Mohan Malviya National Mission for Teachers and Teaching.
